LD AF receives grant from EPA

Agriculture and Forestry Commissioner Bob Odom said the U.S. Environmental Protection Agency (EPA) recently awarded a \$220,917 grant to the Louisiana Department of Agriculture and Forestry (LDAF) to administer pesticide policy in the state.

"These funds are used by the LDAF to protect Louisiana citizens by ensuring pesticide-relat-

ed operations in the state, including aerial applicators, farmers, dealers, and pest control firms, know and follow the laws, rules and regulations concerning pesticide use," Odom said. "The grant supports routine inspections, complaint investigations, laboratory work and other pesticide-related programs."

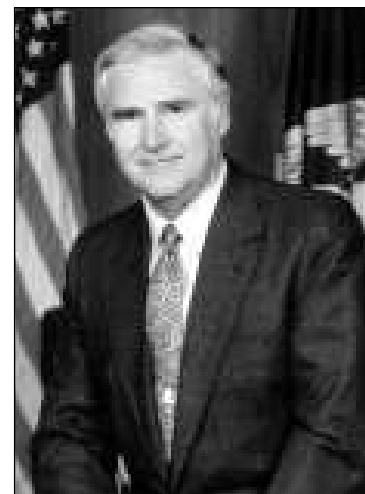

Under the terms of the cooper-

ative agreement with the EPA, the LDAF will ensure pesticides are applied according to label directions and produced and distributed in compliance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA).

Odom said the EPA has routinely awarded the grant to the LDAF for more than 30 years. "When it comes to monitoring pesticide use, production and

distribution, the LDAF's track record is outstanding" Odom said. "Without the funding, we wouldn't be able to maintain our state's high standards."

"In addition, the LDAF will continue to use these funds to enhance the pesticide worker safety program, the endangered species program, and the ground/surface water protection program," Odom said.

Bob Odom,
Commissioner
